# Demo Guide Walkthrough

This guide walks you through testing the full project workflow.

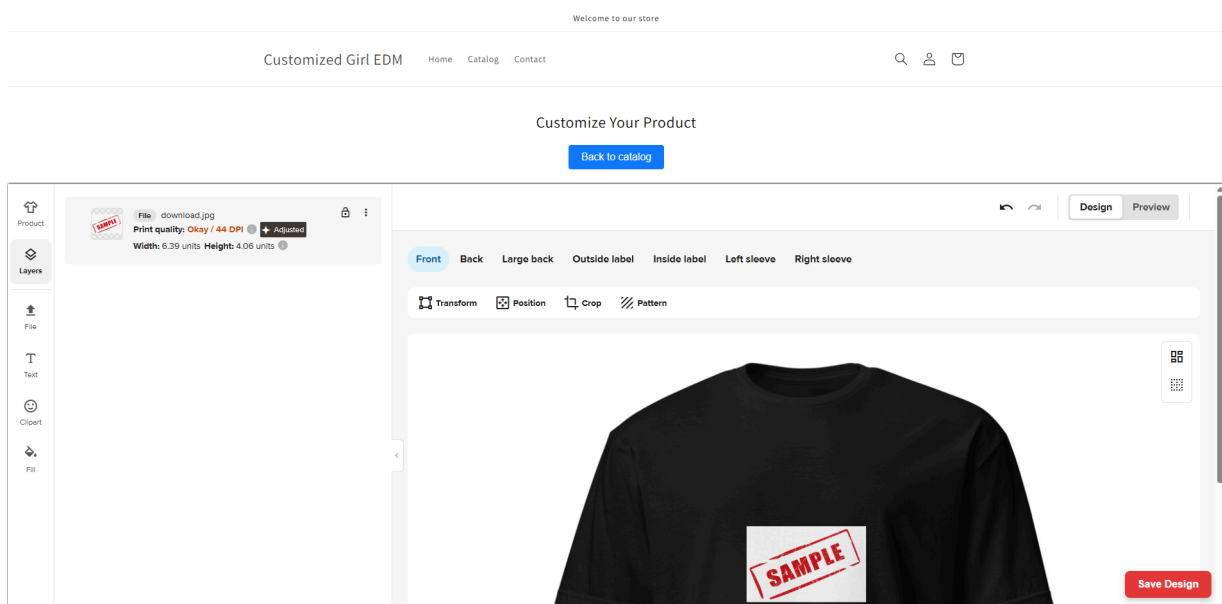

Step-by-Step Manual Guide

1. **Go to the Shopify EDM catalog selection page**
   - Open: Shopify Product Catalog Page Website
   - Select any design on the page and click **Start Customizing**.

2. **Customize the product design**
   - Adjust the design as you like.

3. **Save the design**
   - Click **Save Design**.
   - Enter an email and a Design Name.
   - Submit the form.
4. **Go to the Customizer Application**
   - Open: Customizer Next JS Website

5. **Log in**
   - Go to the Dashboard.
   - Enter credentials:
     - **Username:** `admin`
   - **Password:** `admin123!`
6. **Template Dashboard**
   - Displays a list of EDM-created design templates.
   - Locate the design you created earlier.

7. **Template Details**
   - Click a design to open a modal showing detailed template information.

8. **Create a mockup**
   - Click **Create Mockup** to generate mockup images/print files for various placements.
   - A polling process will check the status of mockup creation.

- Once complete, a success message and mockup results will appear.

9. **Create a Shopify product**
   - After mockup creation, click **Create Shopify Product**.

- Once successful, verify the new product on the Shopify Admin Products Page Website.

10. **Synced Shopify product to Printful**

- Open: Printful Store Products Website
- Confirm the newly created Shopify product appears in the product list.
